Audit Details

Audited Project	0Ñ0ó0Á ($Punch)
Contract Address	NV2RYH954cTJ3ckFUpvfqaQXU4ARqqDH3562nFSpump
Client	0Ñ0ó0Á Team
Blockchain	SOLANA
Audit Date	February 21, 2026
Token Price (USD)	$0.024230
Market Cap / FDV	$24.23M
24h Volume	$11457131.28
Liquidity	$656.92K
Token Age	16 days

Disclaimer

This is a limited report based on our analysis, in accordance with good industry practice as at the date of this report, in relation to cybersecurity vulnerabilities and issues in the framework and algorithms based on smart contracts.

DISCLAIMER: By reading this report or any part of it, you agree to the terms of this disclaimer. This report is provided for information purposes only and on a non-reliance basis, and does not constitute investment advice. No one shall have any right to rely on the report or its contents.

Elite Oracle and its affiliates owe no duty of care towards you or any other person, nor does Elite Oracle make any warranty or representation to any person on the accuracy or completeness of the report. The report is provided "as is", without any conditions, warranties or other terms of any kind.

The analysis of the security is purely based on the smart contract data retrieved from GoPlus Security API and on-chain DEX data. No applications or operations were reviewed for security. No product code beyond the smart contract has been reviewed.

You should conduct your own independent investigation and due diligence before making any investment decisions. Past security audit results do not guarantee future safety.

Background

Elite Oracle was commissioned to perform a smart contract security audit:

NV2RYH954cTJ3ckFUpvfqaQXU4ARqqDH3562nFSpump

The purpose of the audit was to achieve the following:

- Ensure that the smart contract functions as intended and expected.
- Identify potential security vulnerabilities within the smart contract code.
- Verify compliance with standard token security best practices.
- Assess honeypot risk, tax manipulation, and owner privilege concentration.
- Provide actionable findings categorized by severity level.

The information in this report should be used to understand the risk exposure of the smart contract. Security data was retrieved via GoPlus Security API and DexScreener.

Issues Checking Status

#	Issue Description	Checking Status
1.	**Compiler Errors** Data unavailable	N/A
2.	**Race Conditions & Reentrancy** No data	N/A
3.	**Possible Delays in Data Delivery** No cooldown delay detected	N/A
4.	**Oracle Calls** Not directly checkable via GoPlus — no oracle interaction flagged	N/A
5.	**Front Running** No front-running indicators detected	Passed
6.	**Timestamp Dependence** GoPlus does not flag timestamp dependency directly	N/A
7.	**Integer Overflow & Underflow** Cannot assess without source code	N/A
8.	**DoS with Revert** No DoS with revert detected	Passed
9.	**DoS with Block Gas Limit** GoPlus does not flag gas limit issues directly	N/A
10.	**Methods Execution Permissions** Method permissions appear normal	Passed
11.	**Economy Model of the Contract** Tax data unavailable	N/A
12.	**Impact of Exchange Rate on Logic** No exchange rate manipulation detected	Passed
13.	**Private User Data Leaks** Source not public — cannot verify data exposure	N/A
14.	**Malicious Event Log** No malicious event log detected	Passed
15.	**Scoping and Declarations** Cannot assess without source code	N/A
16.	**Uninitialized Storage Pointers** Cannot assess without source code	N/A

#	Issue Description	Checking Status
17.	**Arithmetic Accuracy** Source code required for full arithmetic check	N/A
18.	**Design Logic** No design logic issues detected	Passed
19.	**Cross-function Race Conditions** No cross-function race conditions detected	N/A
20.	**Safe OpenZeppelin Implementation** Cannot verify without source code	N/A
21.	**Fallback Function Security** No fallback function security issues detected	Passed

Security Issues

High Severity Issues

No high severity issues found.

Medium Severity Issues

No medium severity issues found.

Low Severity Issues

LOW

Source Code Not Verified

Contract source code is not publicly verified — full audit is not possible.

GoPlus: is_open_source = 0

Contract Technical Analysis

OPEN SOURCE **Unverified**	HONEYPOT **No**	BUY TAX **0.0%**
SELL TAX **0.0%**	MINTABLE **No**	PROXY **No**
TRANSFER PAUSE **No**	HOLDER COUNT **690**	LP HOLDERS **0**
HIDDEN OWNER **No**	BLACKLIST **No**	ANTI-WHALE **None**

Contract Security Flags — Top Holders

Top 10 Holdings	Top 3 Holdings	Total Holders	Locked Found
32.6%	16.3%	10	No

#	Address / Label	Tag	% Holdings
1	—		[illegible]0%
2	—		3.49%
3	—		3.04%
4	—		2.55%
5	—		2.51%
6	—		2.45%
7	—		2.32%
8	—		2.32%
9	—		2.04%
10	—		2.03%

Security Score Breakdown

3-Layer Ideal Formula · No double counting · Hard Gate override

LAYER 1 · HARD GATE — No fatal flags detected. No score cap applied.

LAYER 2 · CORE SECURITY (weighted 85% of raw score)

Category	Data Source	Wt%	Score
A. Ownership & Control	Contract Security Flags / GoPlus ownership flags	100	A
B. Trading Safety	GoPlus Trading Flags + Tax Model (buy/sell tax)	100	A
C. Holder Distribution	Address / Tag table + LP Holders table	65	C
D. Honeypot Risk	Honeypot Detection Results (behavioral analysis)	98	A

LAYER 3 · CONTEXT MODIFIER (Token Summary + on-chain signals)

Signal	Applied	Pts
Open Source Verified	NO	—
Liquidity Provider Locked	NO	—
Ownership Renounced	NO	—
Token Age > 90 days	NO	—
Multi-chain presence	NO	—
Token Age < 3 days (very new)	NO	—
Single pair + low liq (<$50K)	NO	—
HP probability > 30%	NO	—
Price volatility > 200% (24h)	NO	—

Net Context: +0% !' +0 pts

Raw 66 + Context(+0) = 66 !' cap@100 = Final: 66

Remediation Status: Unresolved

Mitigation evidence detected on-chain:

[NO] Source Verified **[NO] Owner Renounced** **[NO] LP Locked**

Hard Gate Reference — Fatal Flag Score Caps

CRITICAL	Honeypot Detected	MAX 10/100
CRITICAL	Cannot Sell All Tokens	MAX 20/100
CRITICAL	Hidden Owner	MAX 30/100
CRITICAL	Owner Can Modify Balances	MAX 30/100
CRITICAL	Selfdestruct Function	MAX 35/100
MAJOR	Ownership Reclaim Risk	MAX 40/100
MAJOR	Buy Function Disabled	MAX 40/100
CRITICAL	Buy or Sell Tax > 49%	MAX 25/100

Conclusion

AUDIT SECURITY SCORE

Smart contract audit completed via GoPlus Security. No high severity issues found. 1 low severity note(s) identified. Always conduct your own due diligence before investing.

Smart contracts do not contain high severity issues!

Elite Oracle Note:

Please check the disclaimer above and note, the audit makes no statements or warranties on business model, investment attractiveness or code sustainability. The report is provided for the only contract mentioned in the report and does not include any other potential contracts deployed by the owner.
